The Neo 1.2 delivers large heat output on a small scale. Engineered with our highly efficient 1.2 cubic foot steel firebox, this small freestanding stove was designed to heat occasional use rooms, cottages and small spaces requiring shorter burn times. Its tall profile makes for easy loading and offers a line-of-sight view of the flame, while its modern design ensures it will be the focal point of any room. Choose from painted metallic black side panels or porcelain enamel panels in a variety of colours.
